

NYSOH - Health Plan and Provider Look-Up Tool

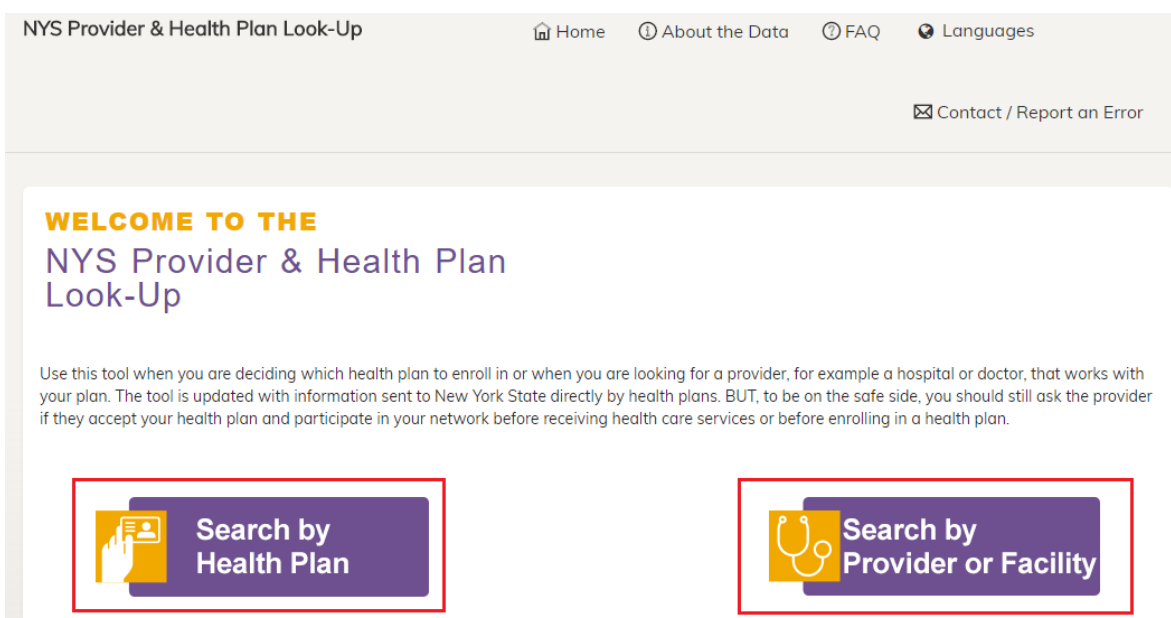

New to the NYSOH is the Health Plan and Provider Look-Up tool. This tool allows all users to research provider networks and health plans. Users can search for preferred providers, including doctors and hospitals, to find which health plans include them in their network. **This tool allows users to search for providers across multiple health plans in just a single inquiry.** The tool includes data from many sources including Medicaid, HARP, HIV SNAP, Child Health Plus, FIDA, Managed Long Term Care, Medicaid Advantage and Medicaid Advantage Plus, PACE, Qualified Health Plans and Essential Plans. The Provider Look Up Tool is updated frequently and allows the user to report any outdated information the user may find in their search.

1. To begin, got to the NYSOH website - <https://nystateofhealth.ny.gov>
2. Click the purple banner on the NYSOH home page:

The screenshot shows the NYSOH website header with navigation links for 'ABOUT', 'RESOURCES', 'FORMS', 'GET HELP', '1-855-355-5777', and 'LANGUAGES'. Below the header is a news section with a purple banner that reads: 'The NYS Provider & Health Plan Look-Up is now available to help you when deciding which plan to enroll in or which providers participate with your plan. [Click here](#).' Below the banner is a section titled 'INTRODUCING THE NYS Provider & Health Plan Look-Up' with a purple button labeled 'Search By Health Plan, Provider, or Facility' and a 'Read More' link. The text describes the tool as an internet tool for consumers to investigate/research provider networks and health plans.

3. On the NYS Provider & Health Plan Look-Up screen, click to either *Search by Health Plan* or *Search by Provider or Facility*.

The screenshot shows the 'NYS Provider & Health Plan Look-Up' page with navigation links for 'Home', 'About the Data', 'FAQ', and 'Languages'. Below the navigation is a 'Contact / Report an Error' link. The main content area features a 'WELCOME TO THE NYS Provider & Health Plan Look-Up' section. Below the welcome message is a paragraph explaining the tool's purpose: 'Use this tool when you are deciding which health plan to enroll in or when you are looking for a provider, for example a hospital or doctor, that works with your plan. The tool is updated with information sent to New York State directly by health plans. BUT, to be on the safe side, you should still ask the provider if they accept your health plan and participate in your network before receiving health care services or before enrolling in a health plan.' At the bottom of the page are two purple buttons: 'Search by Health Plan' and 'Search by Provider or Facility', both highlighted with red boxes.

- Click the *Search by Health Plan* button to search health plans by provider, provider specialty and hospital. To start, select the Health Plan Carrier from the pick list. Next, select the Product (plan designated for specific programs) from the pick list. You may also search by specialty, Show Facilities only or Primary Care Providers within a specific mileage from the zip code entered. Click *Search*.

- The *Advanced Search* option allows for additional search filters such as language spoken by clinical member at specific location, gender of provider, wheelchair access of location and if health plan/product is associated with a specific provider or facility.
- Search results will populate based on the criteria entered in the search fields. A list of 10 entities per page will populate. Because we searched all facilities, the list below includes Hospitals, Physicians, Specialists, Pharmacies and other health related entities.

Results
179 Facilities returned in this search.
Use the Advanced Search option above to refine your search.

Did you mean to search for a provider?
