of Health

SNAPSHOT

As of June 30, 2023, 72%

(402,708) of the 558,923 individuals included in the June 2023 Cohort have **renewed** their coverage across NY State of Health (70%) and the Local Departments of Social Services (LDSS) (82%). This includes individuals enrolled in Medicaid, Child Health Plus and Essential Plan with June 30th renewal dates.

Data within this report reflects renewal status, demographics, and program transitions for individuals in the June 2023 Cohort **as of June 30, 2023.**

Because New York permits late renewal, data in this report does not provide final outcomes for the June 2023 Cohort. Renewal completion rates are expected to rise over the next month.

Additionally, the Department of Health is unable to track enrollment in coverage outside of NY State of Health or LDSSs. For example, a significant number of individuals are estimated to have gained health coverage through an employer, meaning that individuals who do not come back to renew should not be assumed to be uninsured.

New York State Public Health Emergency UNWIND DASHBOARD

JUNE 2023

Tracking the COVID-19 Public Health Emergency Unwind of the Medicaid Continuous Coverage Requirement

INTRODUCTION

Under the Families First Coronavirus Response Act's continuous coverage requirement, New York State Medicaid, Child Health Plus (CHPlus) and Essential Plan (EP) members have not had to renew their health insurance since early 2020. The Consolidated Appropriations Act of 2023 requires states to begin the process of redetermining enrollees in April 2023. This process is also referred to as the "unwind."

New York State began sending renewal notices in the early spring to enrollees in Medicaid, CHPlus, and EP with June 30, 2023 coverage end dates. This process will continue each month until every renewal cycle of enrollees, referred to as a cohort, has had their eligibility redetermined.

NOTE:

- Unless otherwise noted, data included in this report only includes individuals processed through the NY State of Health Marketplace. Due to limitations in data maintained in the Welfare Management System, individuals processed through LDSSs are not reflected here except for in the Renewal Tracking Section and the Transitions Section.
- Data in this document shows individuals, not households or cases.

NOTE:

- Administrative renewal, also known as “ex parte” renewal, refers to the process of using available data sources to confirm eligibility without the enrollee needing to take any action. Manual renewal enrollees must update their application to stay enrolled in coverage.
- EP: Essential Plan, New York’s Basic Health Program
- CHPlus: Child Health Plus, New York’s Children’s Health Insurance Program
- This data includes NY State of Health data as well as data from LDSS.

RENEWAL TRACKING

The total number of individuals up for renewal in the June 2023 Cohort across NY State of Health and the LDSSs is 558,923. As of June 30, 2023 402,708 have successfully renewed and 156,215 are still outstanding (meaning that individuals have not yet returned or enrolled with a health plan).

Because New York permits late renewal through July 31, 2023 for the June 2023 Cohort, the total number of individuals in this cohort completing their renewal is expected to increase through the end of July.

TRANSITIONS

This section displays the number of individuals who remained in their prior program or enrolled in other programs within the Marketplace or LDSSs, where the data are available. Additional information on the eligibility levels for each program is available in the Appendix on page 11.

Data reflects enrollment changes within New York State public programs; this data does not reflect individuals who transition to Employer Sponsored Insurance (ESI) or other coverage outside of the Marketplace, have moved out of state, or are no longer seeking coverage in New York for some other reason.

Program Transitions for those Completing Renewals (N= 402,708) (NY State of Health and LDSS data)							
Program Type (prior to renewal)	Program Type (post-renewal)						Total

Medicaid (339,772)	6%	10%	83%	1%	0%	0%	100%

NOTE:

- “Program prior to renewal” is the program an individual was enrolled in prior to unwind and “Program post renewal” is the program in which the individual is enrolled after renewal.
- Acronyms:
 - QHP: Qualified Health Plan
 - APTC: Advance Premium Tax Credit
 - CSR: Cost Sharing Reduction
 - CHPlus: Child Health Plus
- The Essential Plan is New York’s Basic Health Program

DEMOGRAPHICS

This section provides a view of the most current renewal cohort by various demographics, including race and ethnicity, age, region, and preferred written language. All demographic data represents individuals processed through the NY State of Health Marketplace only.

LANGUAGE DATA

Individuals enrolling through NY State of Health must select their preferred written language on their application. The application data informs which language members receive their notices in, and NY State of Health's overall language access strategy, which includes enrollment assistors who offer assistance in nearly 60 languages. NY State of Health's Customer Service Center is able to provide assistance in any language, and has consumer education materials in 26 languages.

REGIONAL DATA

This map represents the percentage of enrollees in each region who have completed renewal by program for the most recent renewal cohort.

Submissions to Centers for Medicare and Medicaid Services

This section represents New York State data submitted to the Centers for Medicare and Medicaid Services (CMS), which includes both NY State of Health and LDSS data.

BASELINE REPORTING

The baseline report required by CMS is meant to serve as a starting point to track a state's pending eligibility and enrollment actions that the state will need to address when the state begins its unwinding period. New York was required to report summary data on pending applications, renewals, and fair hearings. States will report Medicaid and Children's Health Insurance Program (CHPlus) data in this report. As requested by CMS, this data does not include information regarding enrollees in the Essential Plan, New York's Basic Health Program. Data is not reported separately by program.

While baseline data was submitted in March, New York's first renewal cycle processing began for the June 2023 cohort.

MONTHLY REPORTING

The monthly report is designed to support CMS in tracking the state's progress in addressing pending eligibility and enrollment actions when the state's unwinding period begins. New York is required to report summary data on pending and completed applications and renewals and pending fair hearings. States will report Medicaid and CHIP data, but not Basic Health Program (Essential Plan) data, in this report. Data is not reported separately by program.
