This could alternatively be a modal window overlaying screen-165

Important Note: Creating an Account

At NY HBE you can shop for insurance for yourself, your family, or a friend, or someone unrelated to you like a friend or neighbor.

To move forward we need to know who YOU are. You will tell us later on who you are shopping for, if it's not you.

OK, I understand

About account creation

- Creating an account is easy and saves you time when you want to return and pick up where you left off.
- An email address is not required to shop on the NY-HX (?) but entering one here gives you the ability to retrieve your username later should you forget it.
- These bullets are (wordy) placeholders but you get the point.

Terms used on this page

Security question

Definition of security question here. This is conceptual. Maybe we wrap these into hover helps instead. Not sure yet. -Jeff M
