SEP Overview

- All applications go through the same eligibility determination process regardless of whether they are submitted during Open Enrollment or for a Special Enrollment
 - Applications requesting financial assistance are first determined for Medicaid, then Child Health Plus, then subsidized QHPs
 - Applications not requesting financial assistance are determined for full pay QHP
- Many consumers receive a final eligibility determination immediately
- Some consumers are pended or have temporary eligibility and are required to submit additional documentation in order to validate their application and get a final eligibility determination

Who is Eligible for a Special Enrollment Period

- Must report the triggering event and select a QHP within 60 days after the triggering event
 - Consumers who lose coverage can request SEP 60 days before loss of coverage
- If one person in the coverage household is eligible for a SEP, everyone in the entire coverage household who is eligible for or enrolled in a QHP is eligible for a SEP
- With the exception of the SEP for Change in Eligibility for Financial Assistance, consumers do not need to be already enrolled in a QHP to request a SEP

How to Request a Special Enrollment Period

- Consumers newly applying to NYSOH must complete the Marketplace application
- Consumers who are already enrolled in a QHP must update their Marketplace application
- All submitted applications requesting financial assistance will first be assessed for Medicaid and CHP eligibility, and will then be assessed for QHP subsidy. Individuals not requesting financial assistance applications will be assessed for QHP eligibility.
 - If QHP eligible, consumers will be asked why they are requesting a SEP and the date of the triggering event
 - Consumers who are eligible for a SEP and are within 60 days of the event will be allowed to select a QHP
 - Consumers who are not eligible for a SEP or missed the 60 day window will be told that they cannot select a plan until the next Open Enrollment Period

Demonstration of SEP Application

- Scenario 1
 - Open Enrollment has ended
 - Rosy Fox moves to the State of New York which triggers an SEP
 - She completes the NYSOH application for the first time
 - She is determined eligible for a QHP
 - She selects a QHP within 60 days of the move

Demonstration of SEP Application

- Scenario 2
 - Rosy Fox gets married to Roger Marx which triggers an SEP
 - Roger was uninsured
 - Rosy updates her NYSOH application to add Roger
 - Rosy and Roger are both determined eligible for a QHP and can purchase a couple plan
 - Rosy and Roger enroll in a QHP within 60 days of the marriage

Coverage Effective Dates During SEPs

 - Birth, adoption or placement for adoption, or placement for foster care
- Coverage on the first day of the month after QHP selection
 - Marriage or domestic partnership
 - Loss of health coverage
- Regular effective dates for all other SEPs
 - If a QHP is selected on or before the 15th of a month, coverage starts the first of the following month
 - If a QHP is selection on or after the 16th of a month, coverage starts the first of the second month

What Consumers Need to Know About SEPs

- Medicaid, CHP and the Small Business Marketplace are open to new enrollment all year
- New applicants for QHPs must meet SEP requirements
- When a current enrollee applies for a SEP, the Marketplace will recalculate their eligibility based on the life change
- In most cases, consumers will not need to submit documentation to request a SEP
- Consumers who enroll in a QHP mid-year must meet the entire annual deductible and the full maximum out of pocket limit applies
- Current enrollees who change plans will start over with a new deductible and maximum out of pocket limit
