Statewide Average	93	3	4	235	354	237,022

Provider network reports are based on information submitted by the Health Insurers participating with the NY State of Health. The provider totals are unique totals, meaning that if a provider was submitted at multiple locations within the same county, that provider is counted once. These reports will be updated on a quarterly basis. For more information on QHP and EP provider networks and provider network requirements, please visit the NYS Provider Health Plan Look-Up Tool and the 2025 Invitation for Participation in NY State of Health.

Consumers are encouraged to contact the provider(s) to confirm that they accept your health plan and participate in your network, before receiving health care services, or before enrolling in a health plan. In addition, if there are zero or a low number of providers available in your plan/county, you should contact your Health Insurer to assist with finding you a provider who is available in your network, or to discuss your options of seeing an out-of-network provider.
