HOW MUCH DOES A QUALIFIED HEALTH PLAN (QHP) COST?

MONTHLY PREMIUMS: The price you pay each month will depend on the plan you pick. Most people are eligible for tax credits that lower your monthly cost. Tax credits are calculated based on your income, household size, and where you live.

COST SHARING: The amount you pay when you access services. Most people are eligible to get help paying for these costs, based on income. Below are examples of the QHP cost-sharing for standard plans offered in four tiers. Other available plans have different cost sharing and more covered services.
