Applicable Law and Regulations

Advance Payments of Premium Tax Credit

Advance payments of the premium tax credit (APTC) are generally available to a person who is eligible to enroll in a qualified health plan (QHP) and (1) expects to have a household income between 138% and 400% of the applicable federal poverty level (FPL), (2) expects to file a tax return and claim a personal exemption deduction for a person who meets the eligibility requirements to enroll in a QHP, and (3) is not otherwise eligible for minimum essential coverage except through the individual market (see 45 CFR § 155.305(f), 42 CFR § 435.119(b), 42 CFR § 435.911(b)(1), 42 CFR § 435.603(d)(4)).

The maximum amount of APTC that can be authorized equals:

- 1) the cost of the health insurance premium for the taxpayer's coverage family in the second lowest cost silver plan offered through NY State of Health in the county where the taxpayer resides

minus

- 2) the taxpayer's expected contribution amount

(see 26 USC § 36B, 26 CFR § 1.36B-3).

The taxpayer's expected contribution amount is the amount that the taxpayer is expected to spend on health insurance premiums. The expected contribution for 2017 is set by federal law at 2.04% to 9.69% of household income (26 USC § 36B(b)(3)(A), 26 CFR § 1.36B-3T(g)(1), IRS Rev. Proc.2016-24).

In an analysis of APTC eligibility, the determination is based on the FPL for the first day of the open enrollment period of the benefit year for which coverage is

requested (45 CFR §§ 155.300(a), 155.305(f)(1)(i)). On the date of your application, that was the 2016 FPL, which is \$16,020.00 for a two-person household (81 Fed. Reg. 4036.).

People who use the APTC to help pay health insurance premiums must file a federal tax return and reconcile their expected income (stated on NYSOH application) with their actual income (stated on their federal income tax return). Those who take less tax credit in advance than they claim on the tax return may get the rest of it as an income tax refund or have their tax bill reduced. Those who take more tax credit in advance than they can claim on their tax return will owe the difference as additional income taxes (26 CFR § 1.36B-4).

Legal Analysis

The issue is whether NYSOH properly determined that you and your spouse were eligible to purchase a qualified health plan at full cost, October 1, 2017.

The application that was submitted on September 5, 2017 listed an annual household income of \$80,544.00 and the eligibility determination relied upon that information.

You are in a two-person household. You expect to file your 2017 income taxes as married filing jointly and will claim no dependents on that tax return.

APTC is generally available to a person who is eligible to enroll in a qualified health plan and expects to have a household income between 200% and 400% of the applicable FPL.

An annual income of \$80,544.00 is 502.77% of the 2016 FPL for a two-person household. At 502.77% of the FPL, you and your husband were ineligible to receive APTC because you were over the allowable 400% threshold.

Since the September 6, 2017 eligibility determination properly stated that, based on the information you provided, you and your husband were eligible to purchase a qualified health plan at full cost, effective October 1, 2017 it is correct and is **AFFIRMED**.
