(a) h-Centive Employer Registration Process.

Information is captured on one screen about the primary user associated with an employer and company information (depicted here as two separate screen shots for ease of presentation in this document). The data elements currently being captured by hCentive are a subset of what is outlined for SHOP Employer Registration in the State system. Omissions (which will be remedied) include: preferred spoken/written language; ability to request notices by mail (in addition to email); ability to identify a secondary contact; attestation for company size (50 or fewer) and attestation for offering coverage to all those employees working 30 hours or more.
(b) hCentive – Premium Calculator

**Contribution**

An Employer Contribution of 50% indicates that the employer is going to pay half of the employee's premium costs for coverage. The employer will still be responsible for paying the total premium cost and will deduct the remaining 50% cost from the employee's wages.
